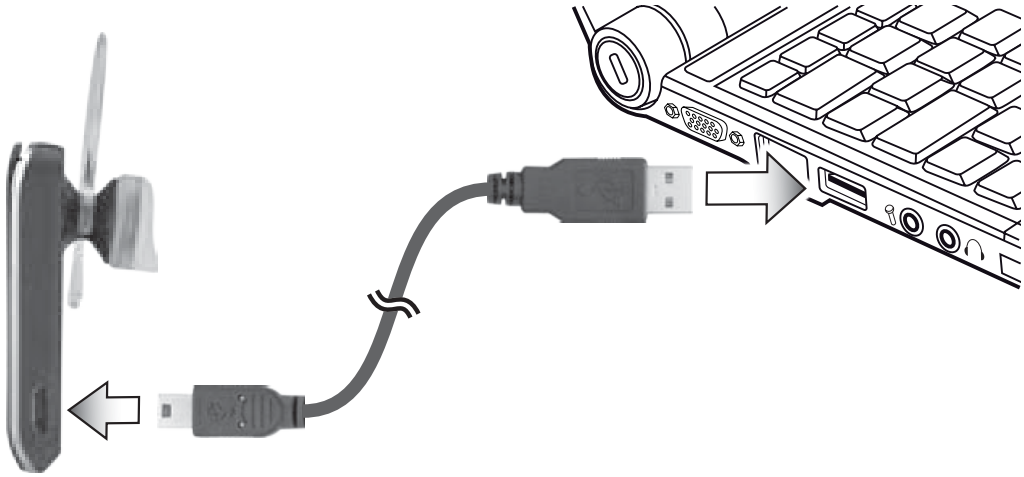
Charge Your Headset

When the headset beeps and the indicator repeatedly double-flashes red, charge your headset. If you do not charge your headset, it will turn off automatically.

- Normal charging takes about 1.5 hours.
- The fully charged battery provides up to 5 hours of talk time and up to 168 hours of standby.



1. Connect the USB plug of the supplied charging cable to the USB port of your computer or to a USB charger.
2. Connect the cable's Micro-USB plug to the headset's USB charging port. The **Indicator** lights red when charging and turns off when fully charged.
3. Unplug the charging cable when the headset is fully charged.

Pairing

1. Press and hold the **Multifunction** button for 7 seconds to enter pairing mode. The **Indicator** flashes red and blue. Your headset searches for Bluetooth-enabled devices.
2. Follow the instructions for your Bluetooth-enabled device to pair with the headset. After successful pairing, the **Indicator** flashes blue once every 7 seconds and the headset enters standby mode.

Pair and connect with the second device, then manually connect the first device according to its pairing instructions.

4. Press and hold the **Multifunction** button for 2 seconds to turn off the headset. The **Indicator** flashes red twice.

Note:

- *If your Bluetooth-enabled devices are out of connection range and disconnect with the headset, move back within 10 minutes to reconnect automatically.*
- *To avoid scratching your skin, do not press the* **Multifunction** *button while putting on the headset.*

Make and Receive Calls

Press and hold the **Multifunction** button for 3 seconds to turn on the headset. The **Indicator** flashes blue three times.

- To make a call, use your mobile device as normal when the headset is connected.
- To redial the number you last called when no call is in progress, press the **Multifunction** button twice quickly.
- To activate voice dial when no call is in progress, press and hold **VOL -** for 3 seconds until the phone starts voice dialing.
- To answer or end a call, press the **Multifunction** button briefly, or use the phone keys.
- To reject a call, press and hold the **Multifunction** button for 3 seconds.

- To mute or unmute the microphone during a call, press and hold **VOL -** for 3 seconds.
- To toggle a call between your headset and your connected phone, press and hold the **Multifunction** button for 3 seconds.
- To switch two calls between two phones, press and hold **VOL+** for 3 seconds.

Note: *The button function may vary depending on your phone's protocol.*

FCC Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
